

Business Banking

Offer your customers a seamless, personalized experience in the office, on the road, or at the branch – all on the same platform as consumer banking. Our Business Banking Solutions are designed on the unique needs of businesses to empower you to compete and win business banking relationships with the right set of financial tools – web, mobile and tablet.

Homepage

Business focus view of homepage with approval widget

- Clean and intuitive user interface
- Same top-rated mobile design as Digital Insight's retail offering
- Custom limits, dual approval, out of band authentication and tokens that raise the bar on fraud management
- Payments templates to reduce errors and provide efficiency

The Digital Insight Difference

Our Business Banking Product is designed for businesses from the ground up – providing one segmented platform, differentiated customer experiences and future omni-channel integration.

- **Usability:** Easily administer a differentiated experience that is intuitive for the business customer and designed specifically for businesses.
- **Single platform:** Enjoy streamlined control delivered on one platform for businesses and consumers with consistent experience and the highest levels of reliability. Use the same set of administrative tools you already know for both sets of users.
- **Single sign-on:** Your choice of vendors for business bill pay, mobile remote deposit capture and online statements as an initial delivery.
- **Market depth:** Appeal to a wide range of business needs from small business to mid-market.

Located on a single platform your business customers will have access to the right set of financial tools
